Why Trinity Business School?

No. 1 University in Ireland

Trinity is ranked 1st in Ireland and 75th in the world overall, and 1st in Ireland for both employer reputation and employment outcomes.

(QS World University Rankings 2027)

3 MScs in the Global Top 35

Our MSc programmes in supply chain management, marketing, and finance rank among the world's top 35 in their fields.

(QS Business Master's Rankings 2027 and Financial Times Masters in Finance Ranking 2026)

Top 1% of Business Schools

Trinity Business School is among fewer than 1% of business schools worldwide to hold accreditation from AACSB, AMBA and EQUIS.

13 Specialist Programmes

Deepen your expertise, move into a new field or prepare for the next stage of your career.

500+ Industry Partners

Build your perspective and professional network, connecting with professionals across technology, finance, consulting, pharmaceuticals and enterprise.

90% Employed After 9 Months

90% of respondents were employed nine months after completing their MSc.

Transform Business for Good

Business education with purpose

Trinity Business School's mission is to Transform Business for Good: supporting business that is ethical, impactful and sustainable.

A Trinity Business School MSc gives you more than technical expertise. It develops the judgement and confidence to make responsible decisions and act on them throughout your career.

OUR VALUES

Excellence

Achieving our greatest potential.

Eco-Sustainable

Advancing responsible and sustainable management.

Ethical & Humane

Practising with integrity and upholding high ethical standards in business.

Equality, Diversity & Inclusion

Embracing and celebrating equal opportunity.

Your Global Community

Learn with the world in the room

At Trinity, international perspective is part of everyday life, sparked by the diversity of each cohort, the ideas tested together and the range of cultural and professional viewpoints in the room.

YOUR CLASSROOM

You will study with classmates from different countries, academic disciplines and professional backgrounds, exchanging perspectives and challenging assumptions through discussion and group work. This experience develops the cultural awareness needed to collaborate and lead across borders.

YOUR NETWORK

Your Trinity network starts with the people you meet on your programme and extends to a worldwide alumni community. Over time, that can mean a familiar face in a new city, an introduction in a sector you want to enter or advice from someone who has already made the move you are considering.

Your connection to Trinity begins with your MSc and lasts for life.

“The international atmosphere in the classroom allowed me to voice my opinions and really prepare for today’s multicultural workplace.”

*Denis Hristev, MSc in Digital Marketing Strategy graduate
Trading Graduate in Brand Marketing, Flutter UK & Ireland*

Your Global Business Base

Experience Dublin. Connect with Ireland and the world.

Dublin is part of your MSc experience, not just its backdrop. Trinity's city-centre campus places you in a compact, welcoming and international capital, close to leading employers, Dublin's waterfront business district and the city's cultural life.

GLOBAL BUSINESS ON YOUR DOORSTEP

Study close to global companies and growing enterprises across technology, finance, consulting, professional services and pharmaceuticals. This proximity enhances your MSc experience with guest speakers, employer events and networking across Dublin's business community.

ENGLISH-SPEAKING EU MEMBER STATE

Build your network in Ireland, an English-speaking member of the EU and eurozone, connected to international organisations, talent and markets.

CITY, COAST & CULTURE

Dublin seamlessly blends historic charm, vibrant culture, and coastal escape. With the mountains and sea just a short trip away, the best of Ireland is right outside your lecture room.

SAFE & WELCOMING

Ireland combines a high quality of life with a peaceful and stable environment. It ranks 5th of 163 countries in the 2026 Global Peace Index.

YOUR NEXT STEP IN IRELAND

Eligible non-EEA graduates of qualifying full-time Irish Level 9 programmes may remain in Ireland for up to 24 months after graduation.*

Planning Your Move?

Find guidance on accommodation and living costs at tcd.ie/business/student-experience/student-life/

* Eligibility and immigration conditions apply. Applicants should consult Immigration Service Delivery for current requirements.

Your Student Experience

A place to do your best work

Trinity offers a rare setting for postgraduate study: a historic city-centre campus, a purpose-built Business School designed to help you do your best work, and the wider opportunities of a university with more than 400 years of history.

YOUR CAMPUS

Study in a setting where historic landmarks such as Front Square, the Campanile and the Old Library sit alongside modern spaces designed for individual study and collaboration. Postgraduate students can also use dedicated facilities including the 1937 Postgraduate Reading Room.

YOUR BUSINESS SCHOOL

Opened in 2019, the School's light-filled atrium and living plant wall create a unique environment for study, conversation and collaboration.

Business School facilities include

The McNabb Foundation Trading Room with Bloomberg terminals

The Trinity AI XR Hub for immersive and technology-enabled learning

Dedicated study and collaboration spaces

A 600-seat auditorium for lectures, speakers and events

YOUR COMMUNITY

Trinity's societies are an excellent way to meet new people and build experience. Manage a portfolio through the Trinity Student Managed Fund, take on consulting projects with the Irish Student Consulting Group, or develop a venture through the Trinity Entrepreneurial Society or Enactus.

Beyond business, more than 120 societies and 47 sports clubs span culture, debating, sport and the arts.

“What stood out about Trinity Business School was its location and energy. Right in the heart of Dublin, it combines top-tier academics with real-world exposure.”

*Zeynep Bilgi, MSc in Digital Marketing Strategy graduate
Sales Development Representative at Datadog*

How You Will Learn

Put ideas to work

Your MSc will be academically rigorous, but learning is not confined to lectures. You will question, test and apply what you learn in real business contexts.

LEARN THROUGH REAL CHALLENGES

Depending on your programme, you may respond to a live company brief, analyse a market, develop a venture, advise an organisation, take part in a simulation or complete an independent research project.

These experiences challenge you to investigate evidence, consider different perspectives and communicate a clear recommendation.

LEARN WITH AND FROM OTHERS

You will learn with academics, industry practitioners and classmates who bring different professional, academic and cultural perspectives.

Team projects, discussion, feedback and guided reflection test your thinking and help you to learn from experience. Together, these approaches deepen specialist knowledge and strengthen your ability to apply it.

Teaching methods, projects and immersive learning experiences vary by programme and module.

EXPLORE AI AND EXTENDED REALITY

The Trinity AI XR Hub brings artificial intelligence and extended reality into the learning environment. Through experiences such as AI-enabled problem-solving, virtual-reality scenarios and interactive simulations, you can practise skills, test decisions and reflect on their impact in realistic settings.

You will explore human-in-the-loop approaches, where people guide, question and validate AI outputs. This highlights where judgement and accountability must remain human and how people and AI can effectively work together.

Careers & Outcomes

Support for what comes next

Whether you are entering the job market, changing direction or stepping up in your field, your MSc is an investment in what comes next. At Trinity, specialist careers support, industry engagement and the alumni community sit alongside your academic programme.

90% Employed After 9 Months

HEA Graduate Outcomes Survey, published November 2025

YOUR CAREERS JOURNEY

Discover

Meet your dedicated MSc careers specialist at induction, your partner in defining your goals and charting your direction throughout the programme.

Build

Identify your strengths, then build the CV, professional narrative and interview skills to communicate them.

Engage

Meet recruiters in person through company presentations, networking events, and live business challenges.

Network

Connect with Trinity's global alumni community and peer networks for sector insights and strategic introductions.

Progress

Secure your role, continue your studies or launch your enterprise, all with lifelong Trinity careers support.

“The job I secured post-graduation began with a careers event where I met recruiters on campus. Meeting them in person made the process more accessible and gave me the confidence to apply.”

Vasundhara Johar, Trinity Business School MSc Graduate

YOUR INDUSTRY CONNECTIONS

Dublin's high concentration of international organisations creates opportunities to learn directly from employers and practitioners. Depending on the programme and event calendar, this may include company projects, guest lectures, company visits, networking events and careers fairs.

YOUR NETWORK FOR LIFE

Your Trinity network doesn't end at graduation. As a Trinity graduate, you retain lifelong access to the School's careers services.

MSc in Business Analytics and AI for Management

FULL-TIME | 12 MONTHS | ON CAMPUS

PART-TIME | 24 MONTHS | ON CAMPUS OR ONLINE

STARTS SEPTEMBER 2027

A business-focused analytics and AI MSc for graduates and professionals who want to use data, machine learning and generative AI to impact strategic decision-making. No prior coding or programming experience is required.

Ranked 1st in Ireland, 17th in Europe and 47th globally for Business Analytics in the QS Business Master's Rankings 2027.

WHO IT'S FOR

Graduates from a numerate discipline, or professionals with relevant analytical, technical, business or data experience.

Applicants who want to apply data, machine learning and generative AI to strategic business challenges.

Early-career applicants seeking an intensive full-time route.

Working professionals who need the flexibility to study part-time, either in Dublin or online.

HIGHLIGHTS

Leading Programme

Be part of Ireland's highest-ranked MSc in Business Analytics, offered full-time, part-time on campus and part-time online.

Technical Confidence

Build practical fluency in R, SQL, Python, data visualisation, machine learning, MLOps, generative AI and retrieval-augmented generation.

Business Application

Learn to translate analytics and AI into responsible strategy, deployment and decision-making across organisations.

MSc in Entrepreneurship and Innovation

FULL-TIME | 12 MONTHS | ON CAMPUS
STARTS SEPTEMBER 2027

An applied entrepreneurship and innovation MSc for graduates and professionals who want to launch ventures, grow ideas or move into innovation-focused roles.

Choose from three capstone pathways: Business Development Project, Dissertation or Company Project.

WHO IT'S FOR

Graduates from any discipline; no prior business degree required.

Aspiring founders and early-career graduates interested in creating and growing ventures.

Professionals seeking to move into innovation, strategy or venture development.

HIGHLIGHTS

Founder-Led Learning

Learn how to identify opportunities, design business models, finance ventures and scale ideas in domestic and international markets.

Build by Doing

Develop ideas through project-based learning, applied assignments and access to Trinity's wider innovation and entrepreneurship ecosystem.

Shape Your Pathway

Choose a capstone aligned with your ambitions, whether building a venture, solving a company challenge or undertaking independent research.

MSc in Responsible Business and Sustainability

FULL-TIME | 12 MONTHS | ON CAMPUS
STARTS SEPTEMBER 2027

A sustainability-focused business MSc for graduates who want to turn environmental and social purpose into practical capability for organisations and society.

A small, collaborative class with a choice of real-client consultancy project or individual research dissertation.

WHO IT'S FOR

Graduates from any discipline; business or related experience is helpful but not required.

Motivated by sustainability, climate action, responsible business, human rights or social justice.

Seeking technical knowledge and real client experience to create practical change.

HIGHLIGHTS

Systems Perspective

Understand how business interacts with natural, social and institutional systems, and how organisations can respond responsibly.

Technical Capability

Build practical knowledge in carbon accounting, life-cycle assessment, sustainability reporting, governance and responsible technology.

Real-World Impact

Work with a client organisation on a sustainability challenge or investigate a focused issue through an individual dissertation.

Admissions

Your application starts here

Found the right programme? Here is what you need to prepare and how to submit your application.

HOW TO APPLY

Apply online through your chosen programme page at tcd.ie/business. You will need:

- Academic transcripts, or your transcript to date if you are still completing your degree
- Contact details for two academic referees (applicants with work experience are welcome to apply with one academic and one professional referee).
- Proof of English-language proficiency, if required
- A current CV or résumé
- A personal statement
- A copy of your passport
- Any additional documents specified on the programme page

Application fee: €55 for each programme you apply to.

ENTRY REQUIREMENTS

- A minimum 2.1 honours degree, or international equivalent
- IELTS Academic 6.5 overall, with no band below 6.0, or an accepted equivalent for most programmes
- IELTS Academic 7.0 overall, with no band below 6.5, or an accepted equivalent, for MSc Digital Marketing Strategy, MSc Marketing and MSc International Management
- A GMAT or GRE score, only if requested by the selection committee in a specific case

Meeting the minimum requirements does not guarantee admission. Check the individual programme page for any additional academic, quantitative or subject-specific requirements.

PLAN YOUR APPLICATION

Apply Early

Applications for September 2027 entry open in November 2026 and close on 31 July 2027. Applications are assessed on a rolling basis, and programmes may close early if capacity is reached.

Submit Clear, Complete Documents

Upload current, legible documents and include any relevant additional qualifications or test scores. If you are still studying, submit your transcript to date.

Be Specific in Your Personal Statement

In approximately one page, explain why you have chosen this programme, why now is the right time for you to undertake it, and what experience and perspective you would bring to the class.

Check Your English-Language Evidence Early

If you completed a previous degree entirely through English, you may be eligible for a waiver. Check Trinity's current evidence requirements to determine whether further proof is needed.

Get in Touch

Our admissions team can answer questions about programme choice, eligibility and the application process.
